

## Background music licenses and corona: Longer payout period and a possibility to pause your license

GT Musiikkiluvat follows the government's decisions regarding the current situation and does its best to help its customers. For this reason, invoices for the first quarter of the year that were sent in week 13 have automatically been given a longer payment period (14 days). However, it is possible to negotiate the payment period until the due date by contacting our customer service via email: [asiakaspalvelu@musiikkiluvat.fi](mailto:asiakaspalvelu@musiikkiluvat.fi)

### Pause your music license

If your business has been interrupted because of the pandemic or if the situation has caused significant challenges in your business, you can pause your music license for one or two months. The license will automatically become valid after the pause. The new start date of the license can be specified later if needed. The changes you have made will be credited on to your next invoice.

If you want to pause your music license, please inform us immediately by sending us an email at: [asiakaspalvelu@musiikkiluvat.fi](mailto:asiakaspalvelu@musiikkiluvat.fi)

### Music makers and performers are entrepreneurs, just like you

The restrictions caused by the corona situation has hit hard in the creative arts industry as well and music makers and performers are in a predicament because of cancelled events. Therefore, the compensation for background music has become now an even greater importance as income for music makers and performers. By paying for your background music license even during the pandemic, you show your support for music makers and performers.

Together, let's make sure that music will be played in the future as well.

Kind Regards,

GT Musiikkiluvat
